

|||||HUNT Dimming

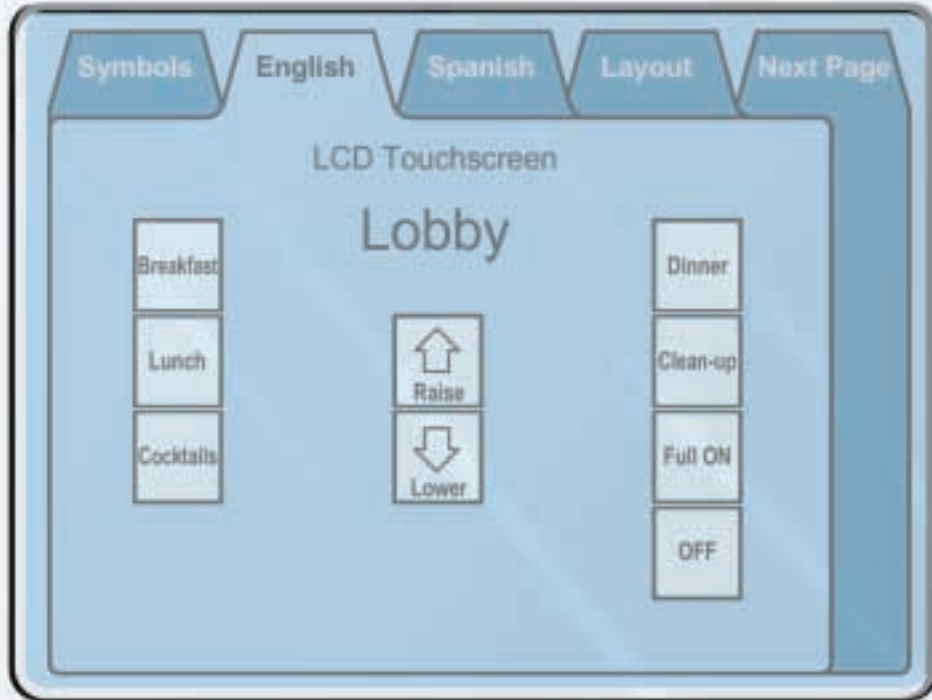

Tight on
dimming space...

small
is **good**

HUNT's 12 circuit rack is the industry's smallest,
lightest-weight, convection-cooled dimming panel.

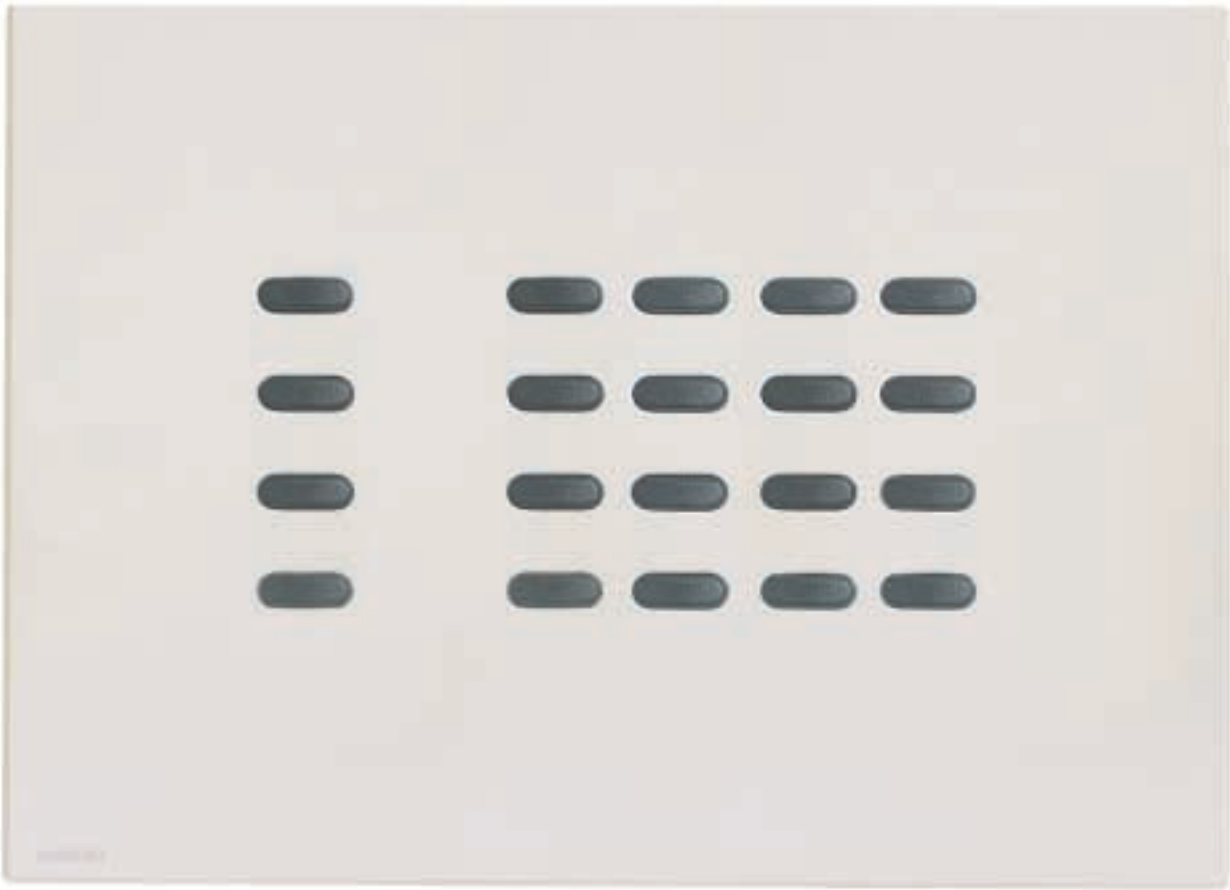

...small
is versatile

Custom LCD Touchscreens are available in many foreign languages,
with international symbols or utilizing your AutoCAD® layout drawings.

(Shown actual size)

Pushbutton digital control stations offer flexibility in project design. Controls are available with virtually any number of buttons in any configuration.

Both LCD and pushbutton controls may utilize IR remotes.

Tight on dimming space?

HUNT Dimming is thinking *inside* the box...and *small* is where it's at. Without giving up power or flexibility.

Our *Simplicity™* Series Digital Dimming System has 12 circuits of 20 amp, state-of-the-art digital dimming control in the industry's smallest, lightest-weight, convection-cooled dimming panel.

What does this mean for you?

Savings.

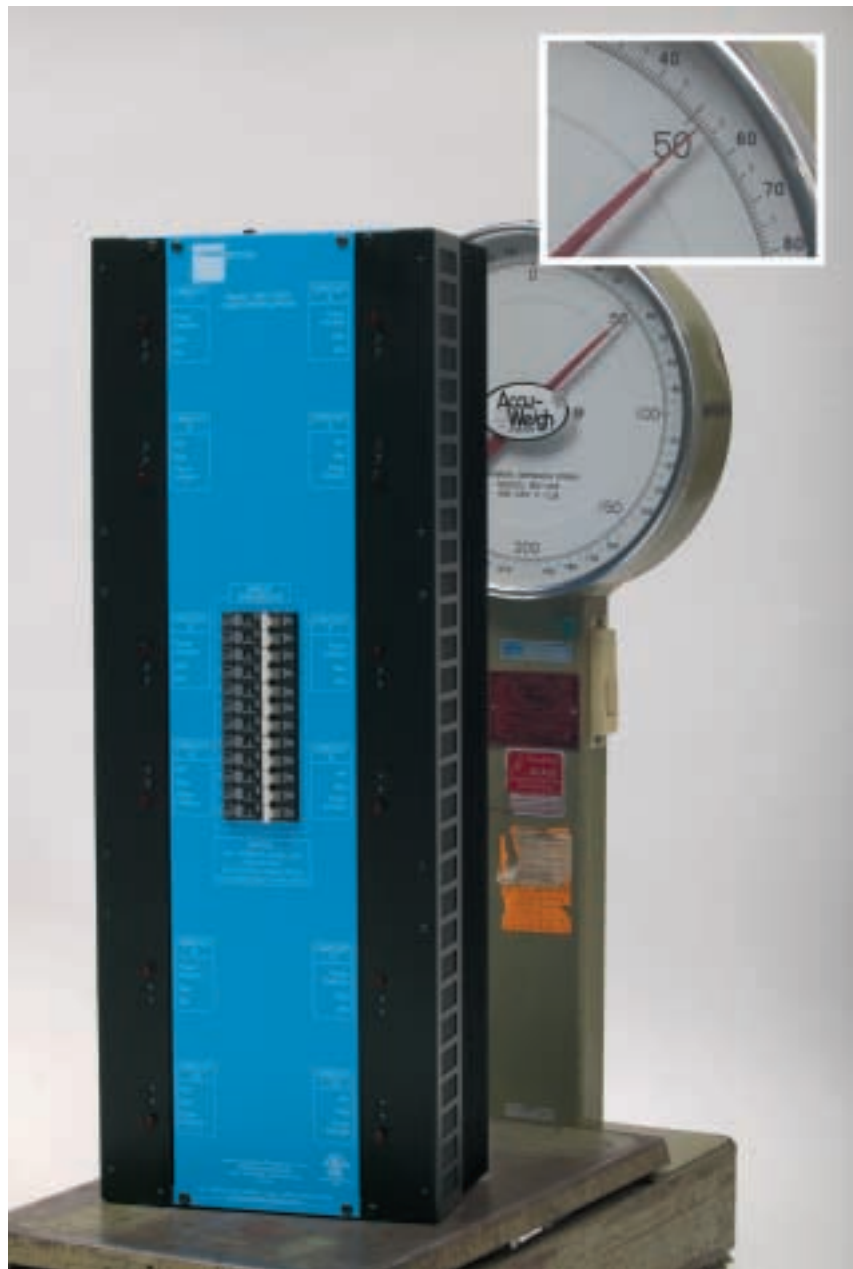

The bottom line on any job comes down to material + labor. The SSD-12/20 offers you the opportunity for substantial savings by reducing labor costs. One person can easily install the panel, and its small size means less movement of existing equipment.

For more information and specifications on the complete line of HUNT *Simplicity™* Series Digital Dimming Systems, visit our website at www.hunt dimming.com or contact us at (970) 484-9048.

Dimming.

It's all we do.

Since 1960.

The SSD-12/20 weighs 53 pounds.
